

Funny Gift Tip: 3D cartoon figurines handmade by individual photo submission

Klosterneuburg, 27 November 2008. **This Christmas gift brings good mood and the recipient will have fun every time when he look at his buddy: a figure of fun <http://www.copy-you.com>. Each figurine is a 3D caricature people oversubscribed with typical facial features and character and equipment. The handmade unique pieces will be created from special artists within a few days after the personal photo was uploaded.**

Whether car or motorcycle riders, different professions or sports: For all areas of daily life over 500 designs are ready to choose from the 3D Catalogue. A number of designs also offer useful additional functions as business cards or cell phone holders, photo frames, pencil stands or key chains.

At the request with a personal dedication

Optional are a number of figures with swinging head available ("BOBBLEHEADS") or with a personal dedication text at the base. Who instead of a portrait photograph of caricaturing a person's whole picture transmitted, will get particularly detailed computational results. In addition to single figures, there are also ensemble piece - ideal for example for family presentations.

And the order is so easy: select character design, upload photo and receive figurine in 10-15 working days. Even your own pet - dog or cat - may be "immortalized" in the same way. The 3D figures are approximately 6-8 inches (15 to 20 cm) high. They are manufactured exclusively from high quality polymer clay, which looks like ceramic.
